

Grant Funding Assistance

Don't Take Grants for Granted

Faced with increased regulations from stormwater management and environmental protection programs and compliance with new restrictions, state and local governments find themselves tightening their belts more than ever. General revenues are being tapped to fund new projects and programs, and options for alternative sources of funding seem scarce and unattainable.

Manhard Consulting can conduct funding analyses that allow you to take full advantage of all potential sources available, and we can help with implementation and tracking to ensure success. Whether you need creative funding, or want to explore more traditional options, such as stormwater utilities, state revolving loans, and grant opportunities, our experienced team will exhaust every conceivable avenue.

Manhard can help you navigate the Repetitive Flood Claims grant program. This program provides funding to assist states and communities in reducing flood damages to insured properties that have had one or more claims to the National Flood Insurance Program (NFIP).

Manhard's FEMA grant preparation efforts have resulted in over 20 million dollars in federal funding for municipalities across the nation.

Services

- FEMA Mitigation Grants
- Flood Mitigation Assistance (FMA)
- Pre-Disaster Mitigation (PDM)
- Repetitive Flood Claim (RFC)
- Severe Repetitive Loss (SRL)
