

Pavement Maintenance Services

Curb Appeal

At Manhard Consulting, we understand that for property owners and managers, it is far less expensive to maintain and rehabilitate pavement that is already in place and use preventive measures to increase the life of your pavement. Our experienced team can help you create a comprehensive pavement maintenance plan that addresses drainage problems, solves immediate congestion concerns, alleviates the limitations of outdated designs and improves accessibility to your property.

What's more, our staff knows how to maximize your budget with the least disruption to business and shopping activities. The end result is a plan that is efficient, cost-effective, in compliance with community regulations and appealing to visitors.

Manhard Consulting considers current use and future needs when providing pavement maintenance solutions that maximize pavement life while addressing parking capacity, aesthetics, access and safety concerns.
